

# Detox Zoo

Good for you!

Sales started in Germany

## DETOX ZOO is a pioneer in the matter of a detox lifestyle!

Cologne, 4th of May 2016. The Cologne startup was founded in late 2015 with the aim to show people that DETOX can and should be fun! In its products DETOX ZOO combines the latest nutritional and care trends with unique formulations, the highest quality, design, and not least animal welfare. Because for each product sold, a part of the proceeds go to the welfare of the respective animal.

The first three products in the range, which have appeared in the spring of 2016, are the smoothie detox powders DETOX FOX, CLEANSE CAT and DETOX DOG.

With Chlorella and Spirulina **DETOX FOX** contains the concentrated power of the sea. The superfood moringa makes this powerhouse complete.

**CLEANSE CAT** contains a combination of different fiber-rich seeds, which are rarely found together in one product. In addition the superfoods turmeric, prickly pear and green coffee are included.

**DETOX DOG** is a blend of the superfoods barley grass, baobab and moringa and many other good ingredients such as spinach, celery and broccoli, which provide the daily serving of vegetables.

All three detox powders are 100% natural and made of bioactive compounds that are vegan, gluten-free and lactose-free. They contain neither additives nor fillers or artificial flavorings. To ensure the highest quality possible the complete DETOX ZOO range is designed and manufactured in Germany together with nutrition experts.

We love it when you write about us! Therefore we are always looking forward to receiving a file copy or a hint at [pr@detox-zoo.com](mailto:pr@detox-zoo.com).
